OWNER,
EXPRESS EMPLOYMENT PROFESSIONALS

Q&A

Major developments in the last year? We completed the acquisition of a small family-owned staffing company in 2012, and we completed the purchase and remodel of our new 10,000-square-foot building in the Westport area.

Is business up so far in 2013? Locally, 2012 revenue was one of the best we have had in our 22-year history. We expect 2013 to finish just as strong.

Expectations for 2014? The implementation of the Affordable Care Act brings uncertainty to the marketplace. When there is uncertainty, the staffing industry flourishes. Companies are slower to make permanent hires. We can step in to help companies maximize productivity with temporary staffing, temporary-to-permanent staffing and other flexible staffing solutions.

Has being a woman business owner given you an advantage over your competitors? I think being a certified woman-owned business has surely opened up some doors for me. But, it still comes down to the basics — we have to create and strengthen relationships with our clients and make sure we keep them happy.
